19.) What changes would you encourage the instructor to make in his/her teaching skills?	<p># Nothing. Mrs Mccollum is an excellent teacher. I was very apprehensive about attending college again, but she made me feel like it was possible!!</p> <hr/> <p># I can honestly say she is one of the best professors I have had in any course but especially a science course. She truly cares about students and learning and what we as students receive from this course. As this was a summer course, I really appreciated that she was specific about material to study and did a great job consolidating a huge subject into a short 12 week summer term. Her teaching skills are great and I see no areas for improvement. She is interesting, informative, helpful, and passionate.</p> <hr/> <p># none she did awesome</p> <hr/> <p># Nothing, she explains everything well and is always willing to help, no matter the situation.</p> <hr/> <p># A little less time lecturing. The lengthy lectures can make a student weary. I do appreciate the breaks in lecture. I think those are necessary.</p> <hr/> <p># Sometimes lectures can tend to get a bit boring when instructor is basically reading from powerpoint. Other than that, she is a wonderful instructor who obviously takes passion in her career.</p> <hr/> <p># Lectures are very informative. She obviously is knows the subject well. No improvements recommended.</p> <hr/> <p># Mrs. McCollum has been very thougrough in presenting the information in a very well thought out manner to ensure the most complex topics are easily understood.</p> <hr/> <p># none</p>
