

Certificate - Homeland Security

The Homeland Security certificate program provides the knowledge and skills necessary for security professionals, including business, industry, and corporate managers who are responsible for risk assessment, infrastructure management, physical and information security, and human capital management. Students will benefit from a dynamic real-world approach to actual and potential scenarios. From terrorism to emergency management, these programs will provide students with current information and transferable skills that are critical to meeting employer needs in both the homeland security and public safety sectors.

Students will obtain certification in Incident Command System (ICS) and National Incident Management System (NIMS). The program is also designed to provide an intermediate recognition for individuals working toward the Homeland Security associate degree. All coursework in the Certificate program is applicable to the Associate in Applied Science degree.

credit hours
